

Press release

Astana, December 04, 2023

KazTransOil JSC will increase the tariff for oil transit through the TON-2 oil pipeline in 2024

From January 1, 2024, the tariff for the service of KazTransOil JSC for pumping oil for transit through the territory of the Republic of Kazakhstan along the Kazakhstan section of the Tuymazy - Omsk - Novosibirsk-2 (TON-2) main pipeline will be \$11.28 USA for 1 ton per 1000 km (excluding VAT). The new tariff was approved by order of the General Director (Chairman of the Board) of KazTransOil JSC.

Currently, the tariff for the service of KazTransOil JSC for pumping oil for the purpose of transit through the territory of the Republic of Kazakhstan along the Kazakhstan section of the TON-2 main pipeline is 4,292.4 tenge per 1 ton per 1000 km (excluding VAT), valid from 1 April 2018.

Thus, from January 1, 2024, the cost of pumping oil for transit through the territory of the Republic of Kazakhstan via the Kazakhstan section of the TON-2 main pipeline will be 2.1 US dollars per 1 ton (excluding VAT). From April 1, 2018 to December 31, 2023, the cost of pumping oil for transit through the territory of the Republic of Kazakhstan via the Kazakhstan section of the TON-2 main pipeline is 799.455 tenge per 1 ton (excluding VAT).

The main oil pipeline TON-2 passes through the territory of the Republic of Kazakhstan and the Russian Federation. The 186.25 km long Kazakh section of the TON-2 oil trunk pipeline supplies oil to the Pavlodar Petrochemical Plant and transits Russian oil to the People's Republic of China and the Republic of Uzbekistan.

For reference:

KazTransOil JSC is the national oil pipeline operator with a diversified network of oil pipelines 5.4 thousand km in length. It is part of the NC KazMunayGas JSC group.
